

# Smoke Your Competition!

Trick out your Opti with a Harken Carbo mainsheet system. A combo of long glass fibers and Nylon resin makes these small blocks super strong and ultra-high performance!

The Hook-in Halyard block is a gotta have that lets you fine-tune your halyard under load while racing.

## Harken 2625: Carbo Ratchamatic

Automatically shifts from light air to ratchet mode. Engagement adjusts to suit weight and sailing style. Fast release!

## Harken 2651: Ti-Lite

Attaches with lightweight line. Use same line to make becket.

## Hook-in Halyard Block

Saddles mast to keep block aligned. Free-rolling 16 mm sheave with stainless steel balls handles high loads.

Harken Hook-in Halyard Block available through any Optiparts dealer. Dealer listings available at [www.iod95.com](http://www.iod95.com)

Harken  
351:  
Ti-Lite

## Harken 2652: Fixed Head Stand-up

Low, light and Carbo strong.
